

## Kiss the Specifics

Joan as Police Woman

I dreamed of a place  
It was easy, it was real  
And I, I will find it in the morning  
It was real

'Cause nobody stops in love  
This moment won't last for ever  
Oh and I, I won't miss this chance to live

Oh I dreamed that I swam  
To the bottom of the sea  
And when I looked up to the sky  
There were silent, scattered moonbeams, warning me

That nobody stops in love  
This moment won't last for ever  
Oh and I, I won't miss this chance to live

I really like paying attention  
It really stirs me up  
I won't make it too detailed

Oh I dreamed...

I would never be careful what I wish for  
'Cause what I wish for is always right

You can guess, yes all you want about me  
Is she high, is she crazy, is she in love  
Well yes I'm in love  
I will never be out of love

I have flown with the eagle  
And the owl, in my dreams  
And when I'll return to the sky  
I will bring it  
All my joy and ecstasy

'Cause stop doesn't mean a thing in love  
I've only started to enjoy it  
But I'm gonna ease right up to this time  
And kiss specifics  
And now the slow dance is dancing me

Yes I've only started to enjoy it  
I've only stop this car and walk the rest of the way  
I'm moving out of the way  
To let the slow dance keep dancing me

I dream  
I dream  
I dream
