Joan Jett and the Blackhearts

This is the moment I been waitin' on
And thinkin' on the whole day thru
I'm so excited that my tongue gets tied
When I get next to you

It's all messed up I'm afraid
I'll never get the chance
So the time is now but I
Wish I had a better plan

How to make contact
I wanna make contact
I wanna make contact, oh yeah
I wanna make contact

I luv to watch ya but I never let ya
Catch me when I'm starin' at you
Ya look so special and I really wanna
Tell ya but I never do

We go thru life like ships passin'
Thru the night
If I could break the ice then I'd
Know it'd be alright

Wanna make contact
Wanna make contact
Wanna make contact, oh yeah
Wanna make contact

I could be satisfied
Makin' it with you
Then doin' it over and over and over
The whole night through

I wanna make contact
