

# Fragile

Joan Jett

It's a thin string between love and death  
She's close enough that I can feel her breath  
The tenuous can't meant in this world  
Spirit left her body, I'm still a little girl

I'm at the point of life now I think about  
My own mortality and how it all works out  
I live the best I could but was that a bluff?  
I've seen myself in wonder, was that good enough?

Fragile  
Life is so fragile  
Fragile  
Life is so fragile

Now!  
I took your ass for granted  
And now you know  
I doubt that we'll recover  
It was a fatal, blow

Giving into impulse  
Was that a sin?  
Momentary pleasure  
It really did me in

Fragile  
Love is so fragile  
Fragile  
Haunt is so fragile

F.R.A.G.I.L.E!  
Fragile!  
F.R.A.G.I.L.E!  
Fragile!

Fragile  
Life is so fragile  
Fragile  
Love is so fragile  
Fragile  
Haunt is so fragile  
Fragile  
I'm stronger than fragile

Fragiiiiile!  
Fragiiiiile!

Hey!  
Hey!
