

Because Of You

Joana Zimmer

Because of you the sun is risin'
Because of you the clouds are gone
With you I see a silver linin'
When life is treatin' me so wrong
Because of you I'm feelin' strong

With you I move the highest mountain
I'll overcome all steppin' stones
You're like the centre of a fountain
With you I feel like comin' home
You are the best I've ever known

Because of you I'm dreaming
You keep my faith in love alive
When I'm in doubt you give me
Strengths
To make my visions all survive
You are the dream I'm dreamin'
I don't mind stormy weather
We're together
To create our
Heaven here on earth

Because of you my heart is singin'
Sweet songs of peace and harmony
We hear our private
Churchbells ringin'
A symphony of liberty
It seems to be our destiny
