

A Lifetime

Jody Watley

I'd like to be the lover
That loves you like no other
I know our love would last a lifetime
'Cause when I close my eyes
Visions of you come to mind
I know our love could last a lifetime

And I can't run away from my feelings
'Cause I can't get you out of my head
And I know this is wrong
But I feel so strong
I wish you were here with me now

'Cause I need you, mmm, here in my arms
Coming closer so we can love on and on
Yeah, I want you, mmm
Even though it's to her you belong
Boy, it's been so long, yeah

Ooh...

Unfortunately for me
All I can do is dream
Of you and I sharing a lifetime
So, baby, say you'll make
My wish come true today
I promise to stay for a lifetime

And I want you to know what I'm feeling
'Cause I can't keep it locked inside
And I'm longing to be
The one that you need
I wish you were here with me now

'Cause I need you here in my arms now
Coming closer so we can love on and on
Yeah, I want you
Even though it's to her you belong
Boy, it's been so long

Boy, I can't run away from you
I need to get closer, baby
'Cause I can't get you out of my head
Ooh-ooh...
And I know this is wrong, oh-oh...
But I feel so strong
I wish you were here with me now

'Cause I need you here in my arms, yeah
Coming closer so we can love on and on
Yeah, I want you
Even though it's to her you belong
Boy, it's been so long...
