

# Clouds

Jody Watley

Are you listening to your life  
Are you listening to the changes  
Are you trying to make a difference  
Are you listening to your experience  
Everyone always has something to say  
Ain't it funny how life can be that way

Like clouds, people hang around  
Cast shadows trying to bring you down  
Like clouds, people hang around  
Cast shadows trying to bring you down

Are you listening to your life  
Are you listening to the changes  
Are you trying to make a difference  
Are you listening to your experience  
Everyone always has something to say  
Ain't it funny how life can be that way

Clouds, they hang around  
Cast shadows trying to bring you down  
Clouds, they sit around  
Cast shadows trying to bring you down

Sunshine and the rain, like clouds  
In time, dark clouds will fade away  
Sunshine and the rain  
In time, dark clouds will fade away

Sunshine and the rain, like clouds  
In time, dark clouds will fade away  
Sunshine and the rain  
In time, dark clouds will fade away...
