

Commitment Of Love

Jody Watley

Oh-oh, yeah

One chance in a million
The two of us would meet
We came face to face with our destiny
One glance in a thousand
Of all the people on the street
Would change our lives forever
And make it feel this sweet
Here we are, surrounded by
A wave of love inside
Cherish me as I'll cherish you
And we'll be each other's guide

We have a commitment of love
That we both need so much
We're sharing something special
That no one can touch
(We have)
It's a commitment of time
That is so rare to find
We've got to protect it
For the rest of our lives
My darling, it's a commitment of love
(Commitment of love)

Let's not take for granted
The treasure that we've found
Counting on each other
To stay on solid ground
There's so much to discover
In each others hearts
Friends as well as lovers
We'll never be apart
If we open up and give enough
We'll stay forever true
Hand in hand, we'll understand
The reason for me and you

We have a commitment of love
That we both need so much
We're sharing something special
That no one can touch
(We have)
It's a commitment of time
That is so rare to find
We've got to protect it
For the rest of our lives
My darling, it's a commitment of love
Love

We'll share in the triumphs
And even if we fall
We'll be together
And stand up through it all
So, hold me now
Surrender to the bliss

Feel the bond between us
Tremble with every kiss

We have a commitment of love
That we both need so much
We're sharing something special
That no one can touch
(We have)
It's a commitment of time
That is so rare to find
We've got to protect it
For the rest of our lives
My darling, it's a commitment of love

We have a commitment of love
That we both need so much
Of love, yeah
(We have)
It's a commitment of time
That is so rare to find
We've got to protect it
For the rest of our lives
My darling, it's a commitment of love...
