

Ecstasy

Jody Watley

No need to spend another sleepless night
I no longer wonder what the feeling's like
The hope consumed my heart in many ways
I'm so glad to have this happiness

'Cause what we have is like no other
Good friends as well as lovers
It's ecstasy, it's ecstasy
It's ecstasy

I don't need to find another lover
I need you like I need no other
I don't need to find another lover
I need you like I need no other
You're the one for me
You're the one for me
It's ecstasy

Call me foolish or naïve
But I've found someone who truly pleases me
He comes with passion, soul and tenderness
Erotic secrets we shall confess

'Cause what we have is like no other
Good friends as well as lovers
It's ecstasy, it's ecstasy
It's ecstasy

I don't need to find another lover
I need you like I need no other
I don't need to find another lover
I need you like I need no other
You're the one for me
You're the one for me
It's ecstasy

I don't need to find another lover
I need you like I need no other
I don't need to find another lover
I need you like I need no other
You're the one for me
You're the one for me
It's ecstasy

Wait 'til you find the one that's right
Before you give your love
Don't follow your friends
Follow your own mind
You'll know when it's right
Remember when he holds you tight
There's a different between sex and love
You'll be lucky to find what I have
It's heaven sent from above

'Cause what we have is like no other
Good friends as well as lovers
It's ecstasy, it's ecstasy

It's ecstasy

It's ecstasy, it's ecstasy, ecstasy

I don't need to find another lover
I need you like I need no other
I don't need to find another lover
I need you like I need no other
You're the one for me
You're the one for me
It's ecstasy

I don't need to find another lover
I need you like I need no other
I don't need to find another lover
I need you like I need no other
You're the one for me
You're the one for me, yeah
It's ecstasy

It's ecstasy
It's ecstasy
It's ecstasy...
