

# Lonely Christmas Eve

Joe Bonamassa

Snow is falling outside  
You said you won't be coming over tonight  
Supposed to be under the mistletoe  
Here kissing me  
Guess it's gonna be a lonely Christmas Eve

I pour a whiskey or two  
Light a fire, watch A Wonderful Life  
That's what we're gonna do  
Some old friends just called and said you better believe  
It's not going to be a lonely Christmas Eve

We're coming over  
We'll have a party for just us strays  
Better get ready  
We're gonna be up late  
We'll play some blues  
You ain't missing anything  
It's not going to be a lonely Christmas Eve

It stopped snowing outside  
I'll take my old sled out for a ride  
A little hope and this is all I really need  
It's not going to be a lonely Christmas Eve  
It's not going to be a lonely Christmas Eve
