

Wild About You Baby

Joe Bonamassa

Well I'm wild about you Baby
and you just don't treat me right
Yes I'm wild about you darling
and you just wont treat me right
leave home early in the moring
And you saty out all night

Yes you leave me baby and you say away all night long
Yes you leave me darling
And you stay away all night long

Keep me weare and crying now baby
And I hope you come back home

Yes you leave me baby and you know you done me wrong
Yes you leave me baby and I know you done me wrong
I turn over on my pillow and I hope you come back home

Yea good bye now baby
I Hope I never see you know more

Yea good night my baby
Hope I never see you know more
you start doing me wrong now child
just like the girl I had before

yea lission to me baby
Cause you know I'm the man
Yea lission to me baby
Cause you know I'm the man
Gonna get me cupple women
And I hope you find a man
