What You Did To Me Last Night

Joe Cocker

I woke up this mornin' Smilin' all over the place I felt so good to myself I didn't wash my face I looked in the mirror To see a halo around my head I knew that I must be dreamin' So I got straight back in bed

All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me

My flesh is glad you found me Even saved my soul And if I remember correctly I'd been alone It's perfectly frightening to say That you bruised my mind I feel like a thousand . . . No respect for time

All because of what you did to me last night Oh (baby) what you did to me

All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me

Gettin' it on...

Said I'm so glad I saved my love for you 'Cause there's no other woman Do the things you do You got me tastin' sweet When you know that I'm salty Oh you got me fanky When you know that I want you

All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me All because of what you did to me last night Oh (baby) what you did to me Gettin' it on...
