

## Fairy Dust

Joe Jackson

Here  
See the little queer  
There's a volunteer  
Don't you think that he should get haircut  
Now  
Like in the Marines  
All the magazines  
Got a way for everyone to shape up

You don't wanna fall behind  
Choking on a cloud of fairy dust - fairy dust  
Now it's only greed and lust  
And pride and lust  
And a few other sins

No  
See the cherry lips  
Hands on the hips  
Anyone would think your name was Oscar  
Wilde  
Think you're pretty smart  
Poetry and art  
Put him on testosterone and vodka

Calling for the man of steel  
To blow you faggots into fairy dust - fairy dust  
Now it's only greed and lust  
And pride and lust  
And a few other sins

We're  
Happy to be gay  
Showing you the way  
Gotta get your head your heart your torso  
Hard  
Join another gym  
Lose your pseudonym  
Soon we'll all be straight but only more so

Tell me who you're gonna find  
To sprinkle on a little fairy dust - fairy dust  
Now it's only greed and lust  
And pride and lust  
And a few other sins
