

# If I Could See Your Face

Joe Jackson

If I could see your face  
The face of the girl behind the veil  
I'd ask you if it feels like a guarantee  
To keep you down, or keep you safe  
Or just keep you pale  
But what makes me think you'd even talk to me

But respect, respect  
Respect my culture  
We're all a part of the human race  
Questions, questions  
Would you answer  
If I could...

If I could see your face  
The face of the man in a German jail  
I'd ask you how your sister ran out of luck  
How you and your brothers tracked her down  
Cause she was living with a German male  
And how you could kill your own sister - you evil fuck

But respect, respect  
Respect your culture  
We're all a part of the human race  
Questions, questions  
Would you answer  
If I could...

If I could see your face

How can I see your face
