

Fallen World

Joe Lynn Turner

Yeah!

Greed and corruption, global disruption
Hanging by a thread on the eve of destruction
Social agitation, anger, frustration
Racial segregation, dividing the nations
Mass migration, overpopulation
People living lives of quiet desperation
Rising inflation, higher taxation
We sold our souls to the major corporations

Spinning round... going down

In a fallen world we just can't stop falling
In a fallen world we just keep on falling down

Ball of confusion, web of illusion
Crawling all around in the dirt and pollution
Priests and prophets giving absolution
War and violence, a suicide solution
Drugs, prostitution, religious persecution
We all belong in a mental institution
Sexploitation, pornofofnication, child molestation
God is on vacation

Spinning round... going down

UFO abduction, Hollywood production
MK Ultra is mind control seduction
Cigarette addiction, alcohol affliction
Dirty politicians with criminal ambitions

Spinning round... going down
