

# My Fly

Joe Moses

Same nigga, same fuck  
We used to be from the squad  
Old mark ass niggas couldn't handle the mob  
Interview a bitch mouth she approve for the job  
Remember sleeping on the floor at my homeboy's job  
Bitch I like to stuffing off that pussy  
Tear drop on my face on the edge somebody push it  
Some of them niggas wear panties  
Don't compare me to pussies  
I'm a legend in my hood, no time for the rookies  
Me and my down ass bitches she the one I love  
Give her good ass dick she convert it to blood  
Make her throw up the beat her ex nigga a cause  
Got teen and some chains for bustin back some slugs  
That's another story baby just remember I got you  
Ain't never been a virgin just remember who popped you  
I sell match your shoes, just remember who taught you  
How to love a real nigga, no matter what cost you

When I wake up in the morning  
I blow one high then I think about the blessings  
I ain't worried about no extras  
She got that fire, in the right time  
It's about time, that I get mine  
I got them lights, look how I shine  
She ain't on yours, she on my  
My fly, my fly, my fly, my fly  
My fly, my fly, my fly, my fly

Take advantage of heart and control her soul  
She get me positive calls when I'm out on the road  
All you man's about to call about to lose her mind  
She tell me just check in and baby we'll do fine  
I respect it, see all I got is to play it cool  
Believed in me, after the deal she can't lose  
Convince me to buy the coupe we too smooth  
Got a house out on 18 yale I'm that dude  
For sure she my benz, for sure we back working  
Deleted all my ex's and fans I don't want them  
Baby got a hell of a grip that's for certain  
If the rain's ain't a hell of a gift the benz hurting  
Fuck them other hoes, so fuck them other bitches  
Take your time girl, shit I'm fucking with ya  
Got your name on my body just to show you it's real  
Is the pussy really good? I swear to God it's I'll

When I wake up in the morning  
I blow one high then I think about the blessings  
I ain't worried about no extras  
She got that fire, in the right time  
It's about time, that I get mine  
I got them lights, look how I shine  
She ain't on yours, she on my  
My fly, my fly, my fly, my fly  
My fly, my fly, my fly, my fly

I realize to set aside sometime

To let you know that  
Girl this moment isn't only mine  
Oh girl I wanna love you  
Like you never been loved before  
Love you like you ain't never been loved before  
Love you like you ain't never been loved before  
My fly, my fly, my fly

When I wake up in the morning  
I blow one high then I think about the blessings  
I ain't worried about no extras  
She got that fire, in the right time  
It's about time, that I get mine  
I got them lights, look how I shine  
She ain't on yours, she on my  
My fly, my fly, my fly, my fly  
My fly, my fly, my fly, my fly
