

# All I Need Is a Heart

Joe Nichols

I got it all figured out  
I know just what it's gonna take  
And ain't nothin' that can't be put back  
Together when it breaks

All I need is a plan, a place to begin  
And a way to understand  
How to put back the pieces again

Don't need another sunny day  
What good would that do?  
Don't need another rainstorm  
Try to wash away these blues

Don't need an old friend  
Or somebody new  
All I need is a heart  
I don't need you

'Cause I have a dream  
I know just how it's gonna be  
I'm gonna feel same as I did  
Oh, you ever laid eyes on me

I'll be free as the wind  
Like a bird on the wing  
I know I'm only missing  
This one little thing

Don't need another sunny day  
What good would that do?  
Don't need another rainstorm  
And try to wash away these blues

Don't need an old friend  
Or somebody new  
All I need is a heart  
I don't need you

All I need is a heart  
I don't need you
