

The More I Look

Joe Nichols

I was just plannin' on comin' in here
For one beer
Maybe shoot a little pool
Shoot the bull and get outta here

But you walked in in that little dress
And my eyes about popped out of my head
Took me a minute to catch my breath
Now I can't stop starin' at you

The more I look, the more I like
The more I wanna take you home tonight
The more that I don't want this night to end

The more you talk, the more I listen
The more I'm thinkin' 'bout me kissin' you
Holdin' that rockin' body close to mine
The more I look, the more I look, the more I like

Well, here we are
And the clocks are knockin' on midnight
I got twenty bucks left down
To drink the bar out of Bud Light

If you wanna go another round
There's a dusty dirt road that we can roll down
To the Blue Hole a couple miles out of town
Baby, we can go right now

The more I look, the more I like
The more I wanna take you home tonight
The more that I don't want this night to end

The more you talk, the more I listen
The more I'm thinkin' 'bout me kissin' you
Holdin' that rockin' body close to mine
The more I look, the more I look, the more I like

A little while we'll just find in that look in your eyes
Says you might wanna jump on in
Well, I don't mind, that will be just fine
I wanna see that moonlight on your skin

The more I look, the more I like
The more I wanna take you home tonight
The more that I don't want this night to end

The more you talk, the more I listen
The more I'm thinkin' 'bout me kissin' you
Holdin' that rockin' body close to mine
The more I look, the more I look, the more I like
Yeah, the more I look, the more I look, the more I like
