

Can't Compare

Joe Perry

She rode me over live a mad truck treading
She make me blind in a place I've never seen
Bend my kind of thinking best things in life are free
Till today it never seemed that way to me

Your love, nobody said is fair
Without you it's despair
Your touch beyond compare
I can't deny I'm scared
Without you it's despair
Your love beyond compare

She crossed my heart I hoped to die
About this love I cannot lie
Strike a match past through the night
My father's son has seen the light

Your love, nobody said is fair
Without you it's despair
Your touch beyond compare
I can't deny I'm scared
Without you it's despair
Your love beyond compare

Your love, nobody said is fair
Without you it's despair
Your touch beyond compare
I can't deny I'm scared
Without you it's despair
Your love beyond compare

You're one of a kind
You're one of a kind
Baby, baby
To anything
To anything
