

Gone Gone Gone

Joe Purdy

Waking up, sleeping in
Feel confused, need a friend
Gussy's back and forth again
Gone

Gone gone gone
Moving out ain't moving on
Waiting around is waiting too long
Gone

Take a bow, take a knee
Making up was make believe
Remember how it used to be
Gone

Gone gone gone
Long for days with nothing wrong
Riding with me singing along
Gone

Met a girl, she took me home
Played me records, sang me songs
Danced with me till the morning come
All night long

Riding around coast to coast
Rhyming rhymes, meeting folks
Wondering where the time goes
Gone

Gone gone gone
Once the days were once [?]
Thought you loved me, I was wrong
Gone

Gone gone gone
Moving out ain't moving on
Waiting around is waiting too long
Waiting around is waiting too long
Gone gone gone

Waking up, sleeping in
Feel confused, need a friend
