

Isn't Love

Joe Purdy

F **Ami**
Well it hurts so much

B **C**
May i scream out loud

F **Ami** **B C**
oh god forbid you could have left me out

F **Ami** **B C**
of your wiked intentions, hateful fools to see
and i wish you had not been born
while we have to meet

B **C F Ami B C F Ami B C**
and i hope this isnt love

so carry on with your cutting people down
he may fall in love as he falls to the ground
and you never seem to care what we feel inside
as long as no one gets near the safes that you hide
and i hope this isnt love
and i hope this isnt love

B **C F**
last night i had the sweetest dream

B
that you were nowhere near me

C B
that you could not cut me

C B
that you do not affect me

C **Ami B**
that i had my sanity

C **F Ami**
that was just a dream

B C **F Ami B C** (2x)
that was just a dream

so go away
why cant you leave me be
because i love your face and need for me
so back to your main city for it suits you so well
if you ever ever care that you never tell me
that you would never tell me

F Am B C (3x)

and i hope this isn't love
isn't love
