

# Moonlight

**Joe Purdy**

Moonlight shinin' through the trees  
Moonlight shinin' down on me  
Lights the way for lovers in the dark  
Moonbeams dance on rain-drenched trees  
Sparkle for our eyes to see  
Moonlight shines on them and shines on me

Moonlight bathes the woods around  
Paradise that we found  
Here among the trees and things we love  
Shines on friends far away  
Takes us to another day  
Moonlight shines on them and shines on me

Layin' with the one I love  
Starin' at the moon above  
Bein' where we really wanna be  
Autumn leaves for now are still  
Moon shines on, it always will  
Moonlight shines on them and shines on me  
Moonlight shines on them and shines on me
