## **Friends**

Joe Satriani

I gotta find, I gotta find a special friend A little bit of sexiness That's all I need Someone I can kick it with (oh) Won't put no pressure on me And when the rain comes fallin' down Will you be there for me I need a whole lot of loyalty I need you down on my team You see I been through too much drama in my life You see Every chick so far's been wasted time You see I need someone so special in my life I need that special friend Gonna search around the... world 'Til I find that... girl New York, Georgia, Cali 'cross the water Gonna find my baby... girl Precious like a... pearl I need a very special friend (Very very very very special friend) To be my baby girl to the very end
