

# You Can Make It If You Try

Joe South

You can make it if you try  
You can make it if you try  
You're gonna live until you die, whoa  
You can make it if you try

And sometimes you're gonna cry  
Oh, you may not know the reason why  
Still you're gonna live until you die, whoa yeah  
You can make it if you try (You can make it if you try)

Oh, wait a minute  
If your baby, if she treats you wrong  
Don't go around singin' the blues  
Remember, my friend, in order to win  
You know, that don't mean somebody else has got to lose

You can make it if you try  
You can make it if you try  
You bound to live until you die, whoa have a little mercy, now  
You can make it if you try (You can make it if you try)

Y'all grow up, now  
If this mean old world seems to treats you wrong  
Whoa, don't go around singin' the blues  
Remember, my friend, huh, in order to win  
Don't mean somebody else has a-got to lose

You can make it if you try  
Oh, you can make it, you can make it if you try  
You gonna live until you die, whoa yeah  
You can make it if you try (You can make it if you try)

Try (Try), try (try), try (try)  
Oh, c'mon (Try) and try (try), try (try), try (try)  
C'mon, do it now, baby  
'Cause you can make it if you try (You can make it if you try)
