

# Diggin' The New

**Joe Strummer**

One of those top nights of the year  
And I see everyone's here  
Oh, took me a long time to get it  
But when it's taken time, think and don't forget it

You gotta live in this world, go diggin' the new  
Live in the world, boy, tran, or girl  
Live in this world, oh get diggin' the new

I can see we're really close to something, it's feeling so near  
But I got no time for the Luddites  
Always looking back down the track  
Saying "Can you spot one more detail, Jack?"

You gotta live in this world, go diggin' the new  
Live in the world, boy, tran, or girl  
Live in this world, oh get diggin' the new

Crashing head-on into the future  
Won't even leave a dent  
Just walk in like you own it  
Remember it ain't set in cement

You gotta live in this world  
Live in this world, go diggin' the new  
Live in the world, boy, tran, or girl  
Live in this world, get diggin' the new

Live in this world  
You gotta live in this world, go diggin' the new  
Live in the world, boy, tran, or girl  
Live in this world, get diggin' the new
