

# Come Around

Joe

Whenever he's  
Sleepin' on you  
Come around  
Come around  
I'm ready to  
Sneak up on you  
Come around  
Come around  
When he doesn't  
Give good lovin'  
Come around  
Come around  
Come over  
I'll keep it comin'  
Come around  
Come around  
Why can't he see  
How sexy you are?  
He must be crazy  
Not to think you a star  
How can he let you  
Sleep alone in your bed?  
He should be taking  
Care of business instead

And if you need keys  
Then you know  
Where they're at  
Just let yourself in  
For some wine and relax  
I'll do all the things  
That your man  
Won't do for you  
I know what you need, girl  
You don't have to ask  
You can creep with me

You say that he  
Don't know you at all  
Hanging out all night  
And don't even call  
Making promises  
That he's gonna change  
But does the same  
Thing again and again

And if you need the keys  
Then you know  
Where they're at  
Just let yourself in  
For some wine and relax  
I'll do all the things  
That your man  
Won't do for you  
I know what you need, girl  
You don't have to ask  
And you can

Swing with me  
Oh baby

If he don't treat  
You like a lady  
Come around  
If he don't buy  
You nice things,  
Baby  
Come around  
And if he can't  
Ever get it up  
Come around  
You can take me  
There with one touch  
Come around

[Repeat chorus thrice]
