

## Lean Into It

Joe

Twelve weeks we been in this thing  
What's stoppin' us both from movin' full steam ahead  
I know we both want the best  
Let go, it's not that hard  
Lookin' for a reason to fail before we start  
Don't let it tear us apart

Maybe we can get a little reckless  
Take some chances 'til we perfect this  
All we gotta do is...

Lean, lean into it  
Give me all that you got now  
And baby I'll, I'll give you all of me  
Just lean, lean into it  
We won't fall, we won't shut it down  
Don't shut it down  
Even if you don't believe, just lean

We brought some baggage in with both of us  
With this baggage, ain't no room to trust  
If we gon' win, we gotta go in  
Believe me, that's the only way  
Let's do like we already know  
Never had a love like this before  
Put your heart into it  
Your "all" into it

Maybe we can get a little reckless  
Take some chances 'til we perfect this  
All we gotta do is...

Let's take some chances  
Change our circumstances  
We'll find true love, finally
