

Love Centric

Joe

Out of the blue
Heaven sent you
A vision of beauty, made you my duty
To make you my muse
I can't believe, I've lasted this long
Inspired by you, you are the truth
My words to this song

I live for loving you, make no mistake
We've got a bond, that will live on
Stronger than steel
And it wont ever break

Love centric baby
All that I do
All that I am, baby please understand
That it's all about you
Love centric baby
Right from the start
You shot a magical arrow of love
That went straight to my heart

Legendary love
Is what we possess
Greater than all that came before
The best of the best
They'll read about us, in years to come
The story we write, it will survive
Long after we're gone

I live for loving you, make no mistake
We've got a bond, that will live on
Stronger than steel
And it wont ever break

Love centric baby
All that I do
All that I am, baby please understand
That it's all about you
Love centric baby
Right from the start
You shot a magical arrow of love
That went straight to my heart, yeah

We will shine brighter
Than the brightest star, yeah
Light up the sky
They can see us from mars

Love centric baby
All that I do
All that I am baby please understand
That it's all about you
Love centric baby
Right from the start
You shot a magical arrow of love
That went straight to my heart
