

## New Man

Joe

I never knew that I would feel this way about her  
She was s'posed to be a jump-off not a lover  
She's got me doing things that go against the code  
My homies look at me and says she's got you gone

I look in... the mirror... and I see... a stranger  
He looks like me, but not quite me  
If you think that's too deep  
Girl I can break it down (break it down)

She makes me feel like a convict, fresh out of jail  
I know it may sound crazy but she's made me a new man (uh uh)  
A new man (uh uh), a new man (feel like a brand new man, oh)  
Just like an alcoholic, one month out of rehab  
No exaggeration, yes she has, she made me a new man (new man)  
A new man (new man), a new man (feel like a brand new man)

She got me clearing all the numbers out of my phone  
They be like "Baby where you at?" I tell them leave me alone  
I didn't even see it coming  
All I know is that I looked up one day, and I...

I don't even walk the same, don't even talk the same  
I'm different, she made me different  
I don't even walk the same, don't even talk the same  
Don't know what she did to me

(Brand new man) [x2]
