

Tonight

Joe

Baby

When are you coming over?

Girl, I need to bang your body

Screaming gotta get closer

Girl, I need to feel you next to me now

So hurry up and come over

Just tell me what I gotta do to get you here

So we can make love

Baby, I'm gonna kiss ya, I'm gonna hold ya

Gently caressing on your body

Baby, we can do whatever you like

Gonna make you love tonight

I promise, baby, I will never stop

Taste you to the last drop until you reach ecstasy

It's whatever you like and we gonna do it

When we're making love tonight

Ooh baby, it feels so good to be inside you

Love is driving me crazy

Girl, if you keeping put me down like this

I swear we'd mess around and have a baby

The way that your skin feels on mine

And make a habit daily

Nothing in the world compares to

When we make love, baby

Baby, I'm gonna kiss ya, I'm gonna hold ya

Gently caressing on your body

Baby, we can do whatever you like

Gonna make you love tonight

I promise, baby, I will never stop

Taste you to the last drop until you reach ecstasy

It's whatever you like and we gonna do it

When we're making love tonight

I'ma give it to you, babe, nice and slow

Nothing's too crazy, anything goes

Daddy's on the mission, assume the position

I hope that you're ready baby

'Cause I'm 'bout to start the show

'Cause I'm gonna do whatever it takes

To make your love come down, come down

Ooh, say the world baby, say the world

Girl, let's just make love

Baby, I'm gonna kiss ya, I'm gonna hold ya

Gently caressing on your body

Baby, we can do whatever you like

Gonna make you love tonight

I promise, baby, I will never stop

Taste you to the last drop until you reach ecstasy
It's whatever you like and we gonna do it
When we're making love tonight

Baby, I'm gonna kiss ya, I'm gonna hold ya
Gently caressing on your body
Baby, we can do whatever you like
Gonna make you love tonight

I promise, baby, I will never stop
Taste you to the last drop until you reach ecstasy
It's whatever you like and we gonna do it
When we're making love tonight
