Oh yeah, yeah
Touch on me my baby make I feel alright
I dey happy by your side
With you girl I feel alive
But them try to tell me say for me you bad

And it's crazy how you are the best thing that I ever had
So I telephone my lover
I want you here now
Only you keep me sane
Na you I choose again
Oh don't you bother
I got you covered
You take my pain away
You make me feel again
So I wonder why I feel high
When I Dey with you
You feel like breeze on my face
And I see the love in your eyes o
Na only you go ease all my pain (o yeah)

Na only you Dey make me grin
I no Dey frown when I see your face
Cut all ties with my other babes
Chook me knife I won't feel no pain
No pain, no pain, no pain
Jump over every obstacle

'Cause it's crazy how you are the best thing that I ever had
So I telephone my lover
I want you here now
Only you keep me sane
Na you I choose again
Oh don't you bother
I got you covered
You take my pain away
You make me feel again
So I wonder why I feel high
When I Dey with you
You feel like breeze on my face
And I see the love in your eyes
Na only you go ease all my pain
