Do You Mind

Joel Corry

Do you mind if I keep it real with you?
Told myself I'd just say a word or two
But here we are again in a corner booth
Leanin' in a way that we use to do

If I'm wrong, just stop me
Know I say too much when I've had too much
But I miss your body
We should leave it in the past, but I gotta ask

Do you mind, do you mind if we go back in time
And we go back to mine for the rest of the night?
Do you mind, do you mind if we go back in time?
Know we said it's the end, we can say it again
Do you mind?

Do you mind if I keep it real with you?
Saw you like a dream from across the room
Heard you broke it off with your someone new
And I just ended things with somebody too

If I'm wrong, just stop me
Know I say too much when I've had too much
But I miss your body
We should leave it in the past, but I gotta ask

Do you mind, do you mind if we go back in time
And we go back to mine for the rest of the night?
Do you mind, do you mind if we go back in time?
Know we said it's the end, we can say it again
Do you mind?

Do you mind, do you mind if we go back in time
And we go back to mine for the rest of the night?
Do you mind, do you mind if we go back in time?
Know we said it's the end, we can say it again
Do you mind, do you mind if we go back in time
And we go back to mine for the rest of the night?
Do you mind, do you mind if we go back in time?
Know we said it's the end, we can say it again
Do you mind?

Do you mind?
