

Not Just Me

Joel Faviere

I can't hear the sound
Of my heartbeat breaking
When we're going down, down
When did your heartbeat start to beat me up?
When did your heartbeat start to beat me up, to beat me u-up?

Its not just me
Its the others I can see
Its the others I can see
Its the others I can see
Its not just me
Its the others I can see
Its the others I can see
Its the others I can see

Just want a night of love
I want to make-up
For lifetime alone
But what am I thinking of
When I'm inside my head
And I call it my home

Its not just me
Its the others I can see
Its the others I can see
Its the others I can see
Its not just me
Its the others I can see
Its the others I can see
Its the others I can see
