

I heard shes running from reality  
To me that sounds so saddening.  
And when she asks me where to go  
I don't know what to tell her.  
See now its on my mind  
My hearts what you find,  
every time you let it slip by.  
You know it kills me when you cry  
But it kills me when you lie  
So shut your mouth and look me in the eyes  
I know that's something you have never liked  
I see the picture now because its bright.  
We do this all the time.  
You say everybody's gonna let you down.  
Paranoid everybody's gonna figure you out.  
Its hurtin really really bad you see?  
Kinda like ya stabbin me.  
When she asks me to believe  
I don't know what to tell her  
You said 50/50 right?  
Keepin it strictly business right?  
Every time you would walk out the door into the night.  
You know it kills me when you cry  
But it kills me when you lie  
So shut your mouth and look me in the eyes  
I know thats something you have never liked  
I gave you everything to become blind.  
Fine.She wants to talk, I just tell her  
You say everybody's gonna let you down.  
Paranoid everybody's gonna figure you out.
