

Until I Find My Mind

Joel Stoker

Father lead us not into temptation
Take us nowhere near the devil's side
Give us hope and give us revelations
I like the way that rhymes
Be the guide and be the navigator
Give me strength to row the boat ashore
Till the everything is brighter later
And I will ask no more

But I need some security, a purpose, an identity
A guiding light to indicate right now I'm full of apathy
I know that nothing's free and I'm not looking for your sympathy
But maybe just a shoulder I can lean on till I make it home

Father lead us not into temptation
Take us nowhere near the devil's side
Give us hope and give us revelations
Until I find my mind

But I need some security, a purpose, an identity
A guiding light to indicate right now I'm full of apathy
I know that nothing's free and I'm not looking for your sympathy
But maybe just a shoulder I can lean on till I make it home

Father lead us not into temptation
Take us nowhere near the devil's side
Give us clarity and confirmation
Until I find my mind
Until I find my mind
Until I find my mind
Until I find my mind
