

Champion

Joell Ortiz

This my National Anthem
Probably feel like Opera music in the Phantom
Ain't got one of those, but the Benz nose is gigantic
Them LEDs sneeze, it's allergies as I Breeze Down Atlantic

I never get to flex so let me talk my shit dammit...
Whoever said lyricists money ain't wavy need to can it
Cause I can see the waves in my pool from my hammock
Ice smoking as I pour the Johnny Walker blue Slanted

My wife she pop Rose like Jack did in Titanic
Blasting music, but the neighbors too far to understand it so...
We turn it higher, bonfire in my yard
While the homies shuffle cards I live large, they live large

We rockstars, no guitars, backwoods rolling by R
Stuff the granddad 'til it look like my granddaddy cigar
Half a kilo on the chain call me Neckscobar
Golf Ball diamonds in the Roley so far from sub par

Switch it out wit the Azad, on God this no facade
Beef? Don't even wrap ya head around it like jihad
The wind Chester knock the wind outta ya chest from 50 yards
I don't half-step nothing I go hard

I'm a champion
Raise my arm, I'm a champion
Know my name, I'm a champion
Raise my arm, I'm a champion
Raise my arm...

I felt like it was everybody versus me
Now let's toast cause everyday's my anniversary
Celebrate the boy that climbed through adversity
Well versed, versatile when it come to laying verses B

Went from emerging to filling that emergency room
Wit any rapper doing work and feel they worth a speech
My bars like clay they take shape and just murder beats
I'm at that Barclay in row A wit the perfect seats

You having trouble tryna stay afloat?
I just bought the crib on the lake, yea me and you ain't in the same boat
Buoy... This feel good I never talk crazy
This for the smiles in my face niggas that all hate me

I'm too adored for you to root for?
Or is it the 2 door zooming up route 4? Yea...
Rap figures better than trap figures
Especially when you rap better than all the trap niggas

I'm a Champion
Raise my arm, I'm a champion
Know my name, I'm a champion
Raise my arm, I'm a champion
Raise my arm...
