

Play Me Something Nice

Joeseef

It was such a messy blue
Does she believe in your eyes?
I tried to swim through you
But couldn't bear the tide
Feels like the game is set
The match unfairly won
I wouldn't hedge my bets
But you can watch me run

But I, I know that it's over
But you, do you wanna come over?
'Cause I am cold and I'm tired
Of lyng to myself
I need you here with me

Settle the debt, did we
Minimise the cost?
I'm trying to set the fee
But still it's me who's lost

I'll come to my senses in the morning
But until then
Doesn't have to be love
But before they said you were my friend

But I, I know that it's over
But you, do you wanna come over?
'Cause I am cold and I'm tired
Of lyng to myself
I need you here with me

I need you here with me
I need you here with me
I need you here
