

# Hazeus View

Joey Bada\$\$

Will I see you through my Hazeus View?  
Will I see you through my Hazeus View?  
Will I see you through my Hazeus  
My Hazeus, my Hazeus, my Hazeus view

You ain't running with the apes yet  
Apex at the empire state neck  
Hand no crown, my niggas take that  
In this state of mind, gotta state facts suspect nigga  
Get your wig pushed back tonight, to 1999  
Who'd've thought that 19 I'd be in my prime  
Throw up the right scheme everything else align  
Here's a penny for your thoughts another one another one  
Eventually the dream was bought  
Now that's a real, real, real mind fuck  
Might fuck up your mind if you're lighting up  
Make sure to take a tight if you tough  
Imma titan, like Zeus I enlighten them  
Kick flows, till it's kung-fu fighting them  
Is it him, it is you who was nice as him?  
I don't see nobody no, no  
I don't see nobody no, no

And we probably share a trait or two  
But I can't see what I can't relate to  
Hey Jesus will I ever get to see you through my Hazeus View?

You rap niggas ain't safe yet  
I keep the bombs in my basement  
When I detonate you can feel the vibrations  
I got ya mind shaking and in my right my light gon spark for generations  
One day my voice will be heard  
On every radio station cause fate rearranging and changing and this  
Everyday living in this life I see  
That in every way they wanna see my life decease  
But I survive the question is for how long  
Since my homie died, I been tryin to hold on  
The happy days of my life is now all gone  
But I cope with that weed I smoke and writing these songs  
But it's should I stay should I go?  
Should I stay should I go?  
I don't know, I don't know  
Lord please let me know

Everything cool like in the state of mind  
At this state in my correct, cool, calm, collect  
Deflect the corrupt with intellect  
I talk too much, the jig is up he has risen up  
From a division of, most kings, with they vision precision for precision  
His mind splitting, and soul uplifting  
But still feel so trapped in the solar system
