

We Got Something

Joey Dja

You're my sunshine, but I'm no morning person
You like bright lights, but I'm a lights out person

You're the yin to my yang
I wanna show you everything
I know I'm hard to understand baby

Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something
Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something
Cause I know that we got something

Girl, we got something
Girl, we got something, oh

You like the fast life, but I still move slow motion
I hear that's a bad sign, I might end up heartbroken
(But I know that we got)

But you're the yin to my yang
I wanna show you [?]

Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something
Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something
Cause I know that we got something

We got something
Something a little bit extra
I will never ever need a next one
We got something
Something a little bit extra
I will never ever need a next one

Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something
Say you love me one more time
Can you make me lose my mind
It's okay, let's take our time
Cause I know that we got something

Cause I know that we got something
Cause I know that we got something
