

All The Way Back In Love

Joey Dosik

I don't know most things
But how could I have ever been so dumb
We both were taking this for granted babe
Can't say who was stringing who along
It was wrong

The breakup, what a shakeup
For 30 weeks we didn't speak at all
And then one day I was blowing up
Look at all those missed calls on my phone
Here we go

Thought it was over but the feeling's just too strong
I'm all the way back in love
All the way back in love
It never felt so good to be wrong
I'm all the way back in love
All the way back in love

I called you
What's new babe
She said I wasn't really giving you my all
I said that I'm so scared of growing up
I'm so scared that you might be the one
Oh my god

I'm working through it
I asked her to sushi
On the way I played our favorite song
And when I saw her in the restaurant
I remembered why we'd been set up in the stars

Thought it was over but the feeling's just too strong
I'm all the way back in love
All the way back in love
Give me just one more chance to be the one
I'm all the way back in love
Who sent you from above
It never felt so good to be wrong
All the way back in love
I'm all the way back in love
I'm in love

Proof isn't in how I feel
Show you I can be for real
Proof isn't in how I feel
It's if I can be for real
Baby this one is for real

Oh it never felt so good to be wrong
Oh it never felt so good to be wrong

Thought it was over but the feeling's just too strong
I'm all the way back in love
All the way back in love
It never felt so good to be wrong
All the way back in love

I'm all the way back in love

It never felt so good to be wrong

I'm all the way back in love

I'm all the way back in love

I always knew that it was you
