

Beat The Same

Joey Dosik

If you told my heart
Man it's gonna feel this way
You're gonna love love love
And you're never gonna beat the same again

You'll get torn apart
No, there ain't no shame
'Cause when you love love love
You're never ever gonna beat the same again
'Cause if you you love love love
You're never ever gonna beat the same again
Yea

Getting excited, when I'm looking at you
Tell me the future, tell me what do I do
If I try my best (just try your best)
And give all I have (give all ya have to give)

I can't wait another day
To show you just how I'm feeling
I can't wait another day
To do something right while I'm breathing

If you told my heart
Man it's gonna feel this way
You're gonna love love love
And never ever gonna beat the same again
You'll get torn apart
No, there ain't no shame
'Cause when you love love love
You're never ever gonna beat the same again
'Cause if you you love love love
You're never ever gonna beat the same again
Yea

No fooling around now, this is serious stuff
Break into pieces, no, I'm calling your bluff
Is this too good to last
I keep asking that (I'm wondering baby)

I can't wait another day
Gotta tell you just how I'm feeling (communication)
I can't wait another day
Baby you are that one good reason

If you told my heart
If you told my heart
You're gonna love love love
And you're never gonna beat the same again

You'll get torn apart
Man there ain't no shame
'Cause when you love love love
You're never ever gonna beat the same again
Yea

Never ever ever

Never ever ever
Never ever ever ever gonna beat the same again
Never ever ever
Never ever ever
Never gonna beat the same

If you told my heart
Man it's gonna feel this way
You're gonna love love love
And you're never gonna beat the same again
You'll get torn apart
No, there ain't no shame

'Cause when you love love love
You're never ever gonna beat the same again
'Cause when you love love love
You're never ever gonna beat the same again

Oh if you love love love, you get humbled
If you love love love, you're in trouble
If you love love love
You're never gonna beat the same
Again and again and again
