

Get It Right

Joey Dosik

Get it right (let's get it right)
Get it right (let's get it right)

Get it right, for the very first time
Get it right, don't get me wrong
Get it right, life is getting better
Oh, life is getting better
Get it right, don't get me wrong
It could never be the same
It could never be the same

Get it right
Get it right, for the very first time
Get it right, don't get me wrong, baby
Get it right, for the very first time
Don't get me wrong
Life is getting better
It could never be the same
Without you

I can be strong
But could you really blame me
For wanting another try
If for the very first time

We can get it right
No matter how I try
I keep coming on back for more, oh

Get it right
Get me right now baby (give it to me one more time)
For the very first try
Get it right (give it to me one more time)
Get it right (give it to me one more time)
