

# In Heaven

Joey Dosik

Let's find something that we both agree on  
Something we both can do  
Before I go to turn my hearing aid off  
I need to work things out with you

If I could start with a joke or two  
Get a smile to come out of you  
Give you all that I've got to give  
So we could sing a song like the angels did

I hope you feel this way  
Somebody feel this way  
It's time to make a play

Cause if we can't act like in heaven  
Then we might not know that we have one

We have one  
How could we forget  
We have one

It might not be the most perfect place there is  
But think about what we'll tell our kids  
When they [?] reasons, shouldn't come between us  
Tell me, how could someone not really care with this  
Not care with this

I hope you feel this way  
Somebody feel this way  
We've got to make a change

Cause if we can't act like in heaven  
Then we might not know that we have one  
[?] can feel worried, I think maybe we should hurry  
So that we can grow old in heaven

We have one  
Think about how good it feels  
To have one  
Think about how good it feels to say  
We have one  
Think about how good it feels to say  
We have one

It's exciting  
To do [?]  
How we're trying  
Let's keep trying  
To push forward  
Do more for  
Not just standing  
What's going on lord  
What's going on

Somebody feel this way  
We've got to find a way

Cause if we can't act like in heaven  
Then we might not know that we have one  
Imagine we already have one  
So that we can grow old in heaven

We have one  
Think about how good it feels  
To have one  
How could we forget  
We have one  
Think about how good it feels to say  
We have one

We have one  
We have one  
We have one  
So that we can grow old in heaven
