

Make A Wish

Joey Dosik

Candles on the cake
I feel just like a kid
Take me to the place
Where I feel just like a kid
An eyelash on my face
I'm gonna blow it to the wind

And make a wish for it
I hope I get on track
I can look back
And see it started with a wish for it

Before I start the game
I think of our success
When I see her face
I think of our success
For the first time give me grace
And let me do my best

Make a wish for it
Make a wish for it
See it started with a wish

When I hear the news
Please let it be good
Waiting on some news
Longer than I should
Though it's not for me to choose
Please, let it be good

Make a wish for it
Make a wish for it
I hope I get on track
I could look back
And see it started with a wish for it
I hope I get on track
So when I look back
I'll see it started with a wish

Are there words that I can pray
To help to make a change
Something to do or say
To help to make a change
This evil today
We better make it go away

Make a wish for it
Make a wish do something about it
We better get on track
I hope we look back
And see it started with a wish
I hope we get on track
We better get on track
