

# Making Up Making Love

Joey Dosik

Making up and making love  
Making up and making love  
Making up and making love

When we're frenemies  
You're the end of me  
What is empathy  
Ability to understand the feelings of another

A short memory  
Baby I tell you that's what we need sometimes  
It means everything  
The moments where our love is down then up and rediscovered

Making up  
Then we're making love  
That's how it goes  
It's our best case scenario  
Baby let's go  
Making up and making love  
I'm ready

Come to understand  
All your slights of hand  
But hey, I'm your biggest fan  
So even though I know it keeps on working like no other

What are your demands  
Don't send me off to a distant land, I won't go  
If this goes as planned  
Then you know I'm seeing what you look like when you're getting older

Making up  
Then we're making love  
That's how it goes  
It's our best case scenario  
Baby let's go

Making up  
I don't wanna fight no more baby love  
That's how it goes  
It's our best case scenario  
Baby let's go  
Making up and making love

If there's something better  
If there's something better  
I don't wanna have it without you

If there's something better  
If there's something better  
Then I don't wanna have it without you

If there's something out there better  
Then I don't wanna have it without you  
If there's something out there better  
Then I don't wanna have it no

Empathy, yeah that's what we need  
Empathy, ability to understand the feelings of another

Making up  
Then we're making love  
That's how it goes  
Are you ready, I'm ready  
Baby let's go

Making up and making love  
Making up and making love  
It's our best case scenario  
So baby let's go  
Making up and making love  
Making up and making love  
Making up and making love

Yea each day my love grows stronger  
Baby let's go, I'm ready  
Making up and making love  
Making up and making love  
Making up and making love  
Making up and making love  
Making up and making love
