

Running Away

Joey Dosik

Anytime you think about her
The feeling's there, she's thinking about you
About you, about you
Anytime you see her in the street
What choice is there? She's gotta see you
After you're through
Oh whoa

Oh I got to believe it, baby
That you're thinking about me maybe
I don't know what you're thinking about any other day
When you keep on running away
Running away
Running away
Running away

I try not to expect much anymore
It's over now, but what was it all for?
What was it all for? Yeah yeah
And I'll always care about you, baby
The feeling's there, we grew it too long
To say it's gone
It's gone

I got to believe it baby
That you're thinking about me maybe
I don't know what you're thinking about any other day
When you keep on running way
Running away
You're running away
You're running away

You keep on running
(Why'd you keep running)
You keep on running away
Why'd you keep on running away, running away

(Why'd you keep on running,)
(Why'd you keep on, why'd you keep on running)
(Why'd you keep on,)
(Why'd you keep on, why'd you keep on running away)

I don't mind thinking about her
As long as she's thinkin' about me
About me, about me
About me

I got to believe it, babe
That you're thinking about me maybe
Don't know what you're thinking about any other day
When you keep on running away (you keep on running)
Running away
Running away
Running away

You keep on running
(Keep running)

You keep on running away
Why'd you keep on running away
(Running away)
Why'd you keep on running
(Keep running)
Why'd you keep on running away
Why'd you keep on running away
Running away
You keep on running
(Keep running)
You keep on running away
Running away
(Running away)
