

# Forever Love

Joey Graceffa

Boy you really caught me off guard  
Sitting all alone that Friday night  
My friends were all out on the yard  
With the stereo, you sat by my side

So I took a big chance  
And I asked you to dance  
When I felt the night  
Just come to life  
It was 3am  
But I knew it right then  
From the moment I looked in your eyes

You're my forever love  
Cause the best things take you by surprise  
You're my forever love  
And I knew it from the very first time

I was always in the clouds  
You brought me right back to life  
Infinity in a minute  
Yeah, you always knew how to stop time  
Never knew just what I wanted  
But suddenly you came  
And tonight has been a wild ride

So I took a big chance  
And I asked you to dance  
When I felt the night  
Just come to life  
It was 3am  
But I knew it right then  
From the moment I looked in your eyes

You're my forever love  
Cause the best things take you by surprise  
You're my forever love  
And I knew it from the very first time

You're my forever love  
Cause the best things take you by surprise  
You're my forever love  
And I knew it from the very first time

So hold me close  
Don't let go  
We can do anything we want  
Cause this is our song  
It won't be long  
Till we're always in each other's arms  
Hold me close  
Don't let go  
We can do anything we want  
Cause this is our song  
And it won't be long  
Till we're always in each other's arms

You're my forever love  
Cause the best things take you by surprise  
You're my forever love  
And I knew it from the very first time

Forever love  
Cause the best things take you by surprise  
You're my forever love  
And I knew it from the very first time  
And I knew it from the very first time
