

# Make Believe

Joey Graceffa

When we were young we all had big dreams  
Everyday outside was a movie screen  
We'd hang out under the moon  
Stranded in the afternoon  
But I remember the possibilities  
I imagined the things I couldn't see  
Who said it had to end  
We can always pretend

If we make believe  
Just make believe

Yeah, we would sail across the ocean  
Floating in our minds slow motion  
Sail across my room  
Stranded in the afternoon  
And we can run through my window at night  
I'd see the glow of your flashlight  
A race right down across the street  
Would wake the town of dreaming we just

Make believe  
We just make believe (Would wake the town of dreaming we just)  
Make believe  
We just make believe

And tonight  
We can be anything  
Anything we wanna believe  
Anything we wanna see  
Oh, tonight  
We can go anywhere  
Anywhere we wanna believe  
We can wake the town of dreaming we just

We just make believe  
We just make believe (Would wake the town of dreaming we just)  
Make believe  
We just make believe  
Make believe
