

One Shot

Joey McIntyre

Come away with me
We can hide behind the curtains
I want you to lay with me
Tomorrow's never certain
I want you to say to me
Everything I ever wanted
Say to me
Burn into my memory

You got one shot (Hey)
One shot, baby, and you better be good to me
You got one shot, one shot, baby

Are you scared of me?
Are you just afraid to admit it?
That nothing compares to me?
Can you believe you finally did it?
You're finally alone with me
Do everything I ever wanted
Do to me
Burn into my memory

You got one shot (Hey)
One shot, baby, and you better be good to me
You got one shot, and I hope you don't miss
One shot (Hey)
One shot, baby, and you better be good to me
You got one shot, one shot, baby

I never wanted anybody good for me
That way, I could always say it's meant to be
And I never wanted anyone to lock me down
And take away the keys when I'm not around
But now there's somethin' 'bout you and the way you look at me
You got me thinkin' we avoid catastrophe
If I could only figure it out
Now show me what you're all about

You got one shot (Hey)
One shot, baby, and you better be good to me
You got one shot, and I hope you don't miss
One shot (Hey, one shot)
One shot, baby, and you better be good to me
You got one shot (One shot), one shot, baby (One shot)

I never wanted anybody good for me (One shot, hey)
That way, I could always say it's meant to be (One shot, baby, and you better be good to me)
And I never wanted anyone to lock me down (You got one shot)
And take away the keys when I'm not around (One shot, baby)
But now there's somethin' 'bout you and the way you look at me (One shot, hey)
You got me thinkin' we avoid catastrophe (One shot, baby, and you better be good to me)
If I could only figure it out (You got one shot)
Now show me what you're all about (One shot, baby)
