

# Enough

Joey + Rory

I don't need a whole lot of money  
Diamond rings or things from a fancy store  
And I don't need to look inside of my checkbook and see a lot  
No, all I'm asking for

Is enough to get by on  
To take care of the ones I love  
No, I don't really care to have more than my share  
All I need when times get tough is enough

And I don't need candle light dinners in five-star caviar restaurants  
But it'd be nice to see every shelf in my pantry filled up  
Yeah all I really want

Is enough to get by on  
To take care of the ones I love  
I don't really care to have more than my share  
All I need when times get tough is enough

Enough to get by on  
To take care of the ones I love  
No, I don't really care to have more than my share  
All I need when times get tough  
All I need when times get tough, is enough, enough
