

Easy (It's)

Johan

It's easy, puttin' words into your mouth
Believe me, I can't turn you inside out

It's all right, you can tell me where you've been
Now don't fight, cause there's no way you'll ever win

What is wrong in your life, Julie comes down every single
night
She's sad
Giving love, let it out, tell me now, so we can let it
drop
You're sad, she's sad

And someday, you will make a brand new start
But Julie, she has torn your world apart

What is wrong with her mind
Julie comes down each and every night
Go down, she makes you strong then she's gone
She pulls you up before she pulls you down
Goddamn
She's sad

It's easy, so easy
I can't break away
